To All;

Confirmation we are in Egypt with cargo container #2 from Med Wish International of Cleveland and our first partnership with LIFE for Relief and Development out of Michigan who covered the shipping part of this project. Hopefully we will be able to continue together in supporting Dr. Novick's training teams from International Children's Heart Foundation with another year of surgical team development at Assiut University in 2013. I will ask Dr. Ahmed for pictures of the container arriving in Asyut so we can post it on our web site.

Despite the political turmoil within Egypt this program continues to do incredible work since dedication of the surgery suite in late 2009. Hopefully with the addition of a second surgical suite we will surpass a thousand children who have had successful open heart surgery or corrective catheter procedures, most by the Assiut team on thier own, offering so many Egyptian children and their families the Gift of Life.

How fortunate are we to be able to be part of such a wonderful endeavor. Thank you all for your support.

Dr. Bedaiwy and Dr. Farghaly:

Thank you for coming in today and watching us load. I hope you enjoyed the experience and appreciate your patience on what

turned out to be a busy day with little staff!

Attached is a scan of all the original documents prepared. The true originals, in hard copy, are en route to DHL in Maryland. From there, they will prepare a Bill of Lading and send that along (with these documents) to Assiut. That way, the team at Assiut has both digital and true hard copy originals on hand.

Thank you. Hope we can work together again

Hi Ken,

We are happy to help out with shipping the container of supplies and equipment to Egypt. Today, we are loading a 40 foot container filled with higher education books from McGraw-Hill for the Assiut University.

It is fantastic that so many children in Egypt have been given a chance at life through the work that you all have been doing. We are glad to be a part of this effort.

Best Regards,

Ken...

This is just wonderful. In a country facing such challenges, in a region drifting into increased death and destruction...there you are. What a testimony to you and your team.

Merry Christmas in the middle of all this.

Very best regards,
